

L5 Learning and Skills Teacher Standard

The Learning and Skills Teacher (LST) is 'dual-professional', having first achieved competence in a vocational or subject specialism and then subsequently trained as a teacher. This means that many teachers in the Education and Training Sector (ETS) begin teaching as a second, or even later, career.

The LST role is pivotal to the success of traineeship and apprenticeship programmes, in delivering effective vocational education and training that meets both learners' and employers' needs.

The LST apprenticeship requires development of the professional behaviours, knowledge and skills identified in the LST Standard. The LST Standard and the Assessment Plan have been developed to ensure that dual professionalism is of the highest quality in support of the Education and Training sector and every sector/specialist area.

The Standard/Assessment Plan supports all Trailblazer Standards as part of the quality Apprenticeship Reform. On achieving the LST status, guidance, and support to achieve Qualified Teacher in Learning and Skills (QTLS) status is available through the Education and Training Foundation (ETF)

On-programme Support and Development

- ▶ Diploma in Education and Training, Level 5 (or equivalent): apprentices must achieve (or 'have achieved') the Level 5 Diploma in Education and Training (or equivalent teaching qualification) prior to End-Point Assessment (EPA).
- ▶ Safeguarding: apprentices must achieve a Level 2 Safeguarding accredited qualification, identified as being suitable by their employer.
- ▶ A recommended on-programme assessment cycle: during their 24 months on-programme, apprentices need to develop confidence and competence in all aspects of the Standard. Typically, in the Education and Training Sector, this is achieved through ongoing formative assessment and quarterly cycles of review to prepare the apprentice for the key outcomes necessary for successful EPA.

The Learning and Skills Teacher will:

- ▶ Always operate to ethical and legal standards and within professional boundaries
- ▶ Value diversity and actively promote equality of opportunity and inclusion
- ▶ Be resilient and adaptable when dealing with challenge and change, maintaining focus and self-control
- ▶ Promote a passion for learning and high expectations of all learners
- ▶ Model exemplary communication skills with learners and in all professional relationships
- ▶ Be a role model for the effective use of current, digital, and mobile technologies in support of teaching and learning
- ▶ Underpin their practice by reference to professional standards and evidence-based teaching and learning

Who would benefit?

- ▶ Individuals involved in Training and Development
- ▶ Individuals supporting Apprenticeship and Traineeship programmes
- ▶ Staff working in training providers
- ▶ University lecturers and demonstrators

Our Team

Our training team are experienced in the development of teaching, training, and assessment skills. We have developed unique resources to build knowledge and abilities to develop people in the workplace. Our tutors have backgrounds in industrial and educational settings to assist organisations in passing on skills that make a difference.

Apprenticeship details
